SIR:

**PRE-APPEAL BRIEF REQUEST FOR REVIEW**

Pursuant to a July 12, 2005 Notice in the Official Gazette, applicants respectfully request that a panel of Examiners review the final rejection of the above-identified application which was set forth in a September 31, 2006 Final Office Action.

This Request is being filing concurrently with a Notice of Appeal in a separate paper.

1. The rejection of pending claims 26-29 and 31-43 under 35 U.S.C. § 112, first paragraph, as allegedly not enabled has been maintained in the September 31, 2006 Final Office Action. Claims 26-29 and 31-40 are directed to transgenic plants that have been exemplified in the subject application. See, Examples in the subject application. Claims 41-43 are drawn to a process for making the transgenic plants, which process is also exemplified in the Examples of the subject application.

2. The specification provides a teaching of how to make and use the claimed transgenic plants. Specifically, to make a

transgenic plant in accordance with the pending claims, the specification teaches which genes should be inserted into a plant. The specification also teaches, and the pending claims recite, the conserved amino acid sequences which the genes should encode. See, e.g. page 48, lines 1-10 of Example 3. Indeed, applicants' disclosure has been the basis for subsequent work in which transgenic plants, other than those exemplified in the subject application but within the scope of the pending claims, have successfully been made. See, applicants' January 5, 2006 Amendment, particularly pages 14-21, and the references cited therein showing such transgenic plants being made consistent with applicants' teaching.

3. The September 31, 2006 Final Office Action, however, has refused to acknowledge that the subject application enables any transgenic plant other than the exemplified plants. The refusal is justified by only four conclusory sentences on page 5 of the September 31, 2006 Final Office Action. No basis in fact is provided in the October 31, 2006 Final Office Action which directly rebuts applicants' position set forth on pages 14-21 of their January 31, 2006 Amendment.

4. In conclusion, Applicants respectfully submit that the October 31, 2006 Final Office Action fails to set forth a reasoned basis founded on evidence contradicting applicants' teaching of how to make and use the claimed invention. Applicants' teaching must therefore be found to enable the claimed invention. See, e.g. *United States v. Telectronics, Inc.*, 857 F.2d 778, 785, 8 USPQ2d 1217, 1223 (Fed. Cir. 1988); *In re Certain Limited-Charge Cell Culture Microcarriers*, 221 USPQ 1165, 1174 (Int'l Trade Comm'n 1983), *aff'd. sub nom., Massachusetts Institute of Technology v. A.B. Fortia*, 774 F.2d 1104, 227 USPQ 428 (Fed. Cir. 1985); *In re Marzocchi*, 439 F.2d 220, 224, 169 USPQ 367, 370 (CCPA 1971);
